* for balanced and fair discussions it has to be noted that the capital restructuring was possible only due to the contribution of the investor providing share pledges for the loan taken.

** tasakaalustatud ja õiglase arutelu tagamiseks tuleb märkida, et kapitali restruktureerimine oli võimalik ainult arvestades investori panust laenu tagamiseks aktsiadi pantides.

** to simplify the calculation 50.4% share is considered throughout the period and only dividends per A shares included.

** arvutuse lihtsustamiseks on kasutatud 50.4%-list osalust kogu perioodi vältel ning ainult A-aktsidele makstud dividendid on arvutusse kaasatud.
